Stake Card Information*: (Not needed if ordering Irrigation Retrofit only)

List the letter that best describes the desired service location (see graphic to the right): _____

A Meter Location Card will be provided to be placed at the desired meter location.

The absence of a LWC Meter Location Card at the desired meter site, a pre-installed service sleeve or private service line, or the meter location marked on this application will result in the meter being installed at the center of the premise fronting the closest water main. LWC is not responsible for any facilities on private property, i.e. invisible fences, irrigation systems, or septic fields that interfere with the water service installation.

By signing this application you as owner, or duly authorized agent of the owner, of the property hereby agree to all terms and conditions of the Louisville Water Company's Service Rules and Regulations. (Rules available on request and at www.louisvillewater.com) Applicant agrees to reimburse the Company for the actual cost of any repairs to LWC facilities damaged as the result of Applicant's actions or omissions. Any additional charges or refunds on accounts will be directed to the person or business named as the account holder.

Any data, including flow tests, supplied by Louisville Water related to this service application only represents the pressure and supply at the time of the test. Water supply varies from hour to hour and day to day, throughout the year depending on system operating conditions. Thus, such supply test data provided for the applicant's use can be expected to change, sometimes significantly. Louisville Water does not guarantee a specific water pressure, quantity, nor an uninterrupted supply of water. In reviewing the service application for hydraulic capacity, Louisville Water is only reviewing its ability to comply with regulatory requirements and maintain its distribution system facilities. Louisville Water is not responsible for the design of the service including its size nor the adequacy of pressure.
