

**Private Lead Water Service Line
Replacement Program**

AGREEMENT

Name: _____

Address: _____

I am the homeowner of above address: _____ **Yes** _____ **No**

In consideration of Louisville Water Company's partial payment for the work described in item 1 below, I agree to indemnify, hold harmless and otherwise release Louisville Water, the Board of Water Works and their respective directors, employees and agents from any and all claims, causes of action, damages, losses, penalties or other injuries that arise as a result of the replacement of the private lead service line located on the property identified above.

By my signature below, I understand and agree to the below terms and wish to participate in the Private Lead Water Service Line Replacement Program.

1. I understand the only work eligible for replacement reimbursement as part of this program is the private lead water service line from the property line connection up to (and including) the shut-off valve just inside the home, typically located close to the foundation or in the basement. No plumbing work in the home beyond the shut-off valve is eligible for reimbursement.
2. I will provide Louisville Water with at least two quotes from licensed plumbers to replace the private lead water service line prior to scheduling the work. I will obtain approval from Louisville Water before proceeding with the work.
3. Louisville Water will pay 50 percent of the cost to replace the private outdoor lead water service line, up to \$1,500.
